M.Sc Survey Research & Data Analytics Candidate
International Institute for Population Sciences (IIPS), Mumbai
✉ nareshkuri40@gmail.com

in [LinkedIn](#)

[GitHub](#)

Profile

Quantitative research trainee with experience in survey data collection, statistical modelling, and analysis of large-scale population datasets. Experience familiar with Python, R, and STATA for statistical analysis and reproducible research workflows. Research interests include behavioural and health research, with strong motivation to develop expertise in AI/ML in public health to solve practical challenges of real life. Qualified [UGC-NET \(Population Studies\)-Feb 2026](#) and still learning for improvements.

Education

M.Sc Survey Research and Data Analytics 2024 - 2026
International Institute for Population Sciences (IIPS), Mumbai
till 3rd semester : 6.96/10

B.Sc Physics, Chemistry, Mathematics 2019 – 2022
(Shekhawati Mahavidyalaya, Losal) Pandit Deendayal Upadhyaya Shekhawati University, Rajasthan
CGPA:59.20%

Class XII 2019
Bhartiya Sr. Sec. School, Rajasthan
Percentage: 71.20%

Class X 2016
Subhash Convent School, Rajasthan
CGPA: 9.4/10

Technical Skills

Programming & Statistical Software: Python, R, STATA, SQL

Statistical & Quantitative Methods: Regression Analysis, Hypothesis Testing, Multivariate Analysis, Time Series Analysis, Panel Data Analysis, Cross-sectional and Longitudinal Data Analysis, Sampling Techniques, Missing Data Handling, Bias-Variance and MSE Concepts, Indirect Demographic Estimation Methods

Machine Learning & AI: Supervised and Unsupervised Learning, Predictive Modelling, Classification, Dimensionality Reduction, Applications of AI/ML in Health Research

Data Analysis & Research Tasks: Data Cleaning, Preprocessing, Data Visualisation, Statistical Reporting, Survey Data Analysis, Interpretation of Large-scale Population Datasets

Tools & Platforms: Excel, Power BI, KoboToolbox

Datasets Worked With: LASI, LASI-DAD, NFHS, Census of India, NSSO, PLFS

Research Interests: Population Health Analytics, Demographic Research, Health Inequality, AI/ML Applications in Public Health, Web-Survey design, Longitudinal Data Analysis

Research & Analytical Experience

CapRajasthan Organisation Jun 2025 – Present

- Contributed to questionnaire design and web-based survey implementation
- Assisted in web data collection, management, and preliminary statistical analysis
- Collaborated within a multidisciplinary team

Research Intern – IIHMR University, Jaipur

Apr – May 2025

- Worked on Economic and Health Impact Assessment of Heat Adaptation Action project
- Designed questionnaires, conducted pilot surveys, and coordinated primary data collection
- Managed datasets and performed statistical summaries for reporting

Data Analytics Intern – Rajasthan Parvasi, Jaipur

Jun – Jul 2025

- Analysed Census, PLFS, and NSS data for migration and labour outcomes
- Cleaned and merged large datasets using STATA and Python
- Produced statistical tables, visualizations, and policy briefs

Data Science Intern – InternshipStudio (Online)

Dec 2024 – Feb 2025

- Conducted exploratory data analysis, regression modelling, and prediction tasks using Python

Projects

- [Masters Dissertation: Machine learning approaches to detect and predict neurocognitive disorders among older adults in India: Evidence from LASI-DAD Wave 1](#)

Reports & Writing

- [GitHub Repository for Reports and Documentation](#)
- Policy and survey research reports: [Website Contributions](#)
- Experience summarising findings for technical and non-technical audiences

Conference & Presentation

Longevity Asia 2025: [Religious Engagement and Cognitive Function among Older Adults in India: Evidence from LASI Wave 1](#)

Speaker and moderator for online sessions: [YouTube Channel](#)

Awards & Fellowship

Government of India Fellowship

Certifications

Introduction to Data Science (Forage)

Power BI Essential Training

Principles of Clinical Trials: Design, Conduct and Analysis (IIPSAA)

Introduction to Computational Neuroscience and Biology (IIT)

Foundation of Data Science (SWAYAM Portal)

Classics in Neuroscience (SWAYAM Portal)

Basics of Experimental design for Cognitive Psychology (SWAYAM Portal)

Languages

- Hindi (Fluent), English (Fluent), Gujarati (Intermediate), Marwari (Native).
- Online Resume / Certificates:
